MongoDB

ES6

Axios

graphql

Express.js

TailwindCSS

GSAP

Framer

LANGUAGE

English

Japanese (Basic)

EDUCATION

Bachelor of Science in Information Technology
Cor Jesu College Inc. 2010-2015

Focused on core fundamentals of Java, MySQL, and PHP for system and mobile application development. Coursework covered programming basics, intermediate skills, data structures, algorithms, information management principles, and exposure to emerging technologies in application development.

PROJECTS

Korean Education App (Freelance)

diveintothepond.com

- Played a minor role in enhancing the Letitu education platform by contributing to the creation of a new feature. Leveraging cutting-edge technologies, including Next.js, Vue 3, Nuxt.js, TypeScript, Figma, and Tailwind CSS.
- Utilized Nuxt's routing system in defining pages and layouts for the application.
- Used communication tools like Slack, Microsoft Teams, or similar platforms to facilitate collaboration and discussion among team members.

Photography Website (Freelance)

deopalculanphotography.com

- Developed a responsive photography portfolio website with dynamic content and immersive transitions using React, Tailwind CSS, GSAP, and Framer Motion. Seamlessly adapts to various screen sizes and devices.
- Incorporated an Express.js API to make calls to Cloudinary using Axios. Deployed on Fly.io for efficient hosting.

Colab Project to highlight team built applications

<https://vite-team-devs.vercel.app/>

- Key team member in developing a web app showcasing projects and tech stack. Utilized Vite, TypeScript, TailwindCSS, PostgreSQL, Docker, Express, Vercel, and GitHub. Employed Git for version control, creating branches for feature development. Implemented GSAP Observer for theme updates and scroll effects.

Cafe Shop Website

littlesips.vercel.app

- Developed a website using React.js for a New Jersey-based cafe, showcasing real-world project skills after 4 months of learning React.js. Integrated react-grid for product galleries and React Router for page navigation. Implemented Google Map API for location search. Enhanced user experience with GSAP animations and seamless page transitions.

Game shop project

gameshop.vercel.app

- Developed a Next.js web app with Snipcart API for purchases. Content sourced from GraphQL-based headless CMS. Utilized react-bootstrap/Accordion and MUI for design. Managed data with Apollo Client. Enhanced UX with GSAP animations.

First Portfolio

stepheny.vercel.app

- Developed project within 4 months of learning HTML5, CSS3, and vanilla JavaScript. Implemented scroll animations with HTML DOM's getBoundingClientRect. Established emailJs API connection for contact section.

WORK EXPERIENCE

IT Engineer / Concessionaire Manager.
Yokota Military Air Base.

June 2022-Present
Fussa, Kanagawa, Japan

- Addressed client IT needs and resolved issues by tailoring solutions to their requirements. Proficient in communicating technical solutions in clear, accessible language.
- Achieved sales targets through staff training and motivation. Prioritized exceptional customer satisfaction.

Part time English Teacher
Private Class

Sep 2020-May 2022
